

TASK FORCE ON FINANCIAL INTEGRITY AND ECONOMIC DEVELOPMENT
Coordinating Committee Meeting

January 14 – 15, 2009 -- Washington, DC

Mission Statement:

The Task Force on Financial Integrity and Economic Development will address the inequalities in the global financial system that penalize billions of people, and will advocate for greatly improved transparency and accountability.

The opacity and complexity of our financial system is at the heart of the current financial crisis, and significantly impedes development.

Task Force efforts are integral to those of The Leading Group on innovative financing, comprised of more than 50 countries, to mobilize stable and predictable resources to supplement traditional development assistance.
